

JACKSON COUNTY SENTINEL

VOL. 21. No. 34

GAINESBORO, TENN., THURSDAY, AUG. 21, 1919

ONE DOLLAR A YEAR

BIG SALE OF REAL ESTATE THRU CHANCERY COURT.

1578 Acres of Land Sells For \$103,450.

W. F. Sadler, Clerk and Master, has completed probably what has been the largest sales of land every sold by the Chancery Court in Jackson county. The sales were decreed by the April term of Chancery Court, and included some of the best farms in the county. The total amount of land sold was 1567 acres at a total price of \$103,450.

The farm known as the J. J. Mercer farm located on Roaring river, in the 9th district, was purchased by A. H. Johnson, one of leading farmers of the county, for \$25,650. The farm contains 287 acres, and is one of the best farms on Roaring river.

The B. C. Spivey farm located on Cumberland river, six miles Northeast of Gainesboro, was bid in by W. H. Toney for \$17,000. This farm contains 138 acres, and is encumbered by the homestead and dower rights of the widow. This is a splendid farm, and well worth the purchase price.

The largest farm sold by the court was the W. K. Tinsley farm located on Cumberland river, in the 8th district, and contains 897 acres. Mrs. Ada Tinsley, widow of the deceased, purchased one tract of 260 acres for \$16,000. Besides this Mrs. Tinsley has the homestead and dower rights in the estate. The remainder of the farm, 637 acres, was purchased by J. M. Draper and others for \$36,350.

The remaining lands of the late E. A. Brown located in the first district three miles South of Gainesboro, containing 215 acres, was purchased by Lige Prewitt for \$7,500.

The Gentry land in the second district, consisting of 30 acres, was purchased by T. L. Gentry for \$950.

The sale of these farms have demonstrated two important facts; one is that real estate is selling as high in Jackson county as any county in the state; the other is that the clerk and master has developed into a high class auctioneer. The more land he sells the better he gets.

Revival Closes at Flynn's Lick.

The revival just closed at Flynn's Lick, was in many respects a great meeting. While the visible results were not what we anticipated, yet a great and lasting good was accomplished.

Rev. Dow Ensor did some real preaching, and the people from the surrounding country attended in such large numbers, that the house would not accommodate them.

At the closing service two were received into the church, and evidence that the constituency of the church had been greatly revived, was manifested. The seed has been sowed, and we expect them to germinate in the lives of individuals in years yet to come.

The revival should not cease, but ought to kept going thruout the entire year.

Respectfully,

O. P. Gentry, Pastor.

Valuable Book Soon To Be Published By W. E. Myer.

"Primitive Man in the Middle South" is the title of a book dealing with early life in this section which will be issued about the first of next year. W. E. Myer, the author, has just returned from a tour of the Connecticut river with a party of eight scientists, headed by Prof. Warren K. Moorehead of Peabody museum, Andover, Mass., the trip being made from the headquarters of the river in Canada to the sea. The trip was made in canoes and, during the tour, the men explored Lake Sunapee, in the foothills of the White Mountains, discovering many valuable exhibits dealing with primitive life in that section. Mr. Myer also spent some time in the museum of the east and collected much data for his new book, which promises to be a valuable contribution to scientific literature of the day.

Mr. Myer will shortly remove with his family to Nashville. He has disposed of much of his holdings in Carthage and says he expects to become a citizen of Nashville about the middle of October and will devote his time to scientific research.

As fuel administrator for Tennessee Mr. Myer rendered valuable service to the department of which Mr. Garfield was the head. He is well known over the state and has devoted much time to studying the lives and habits of primitive man in this section. He says that from his investigation he is convinced that the Indians living in the Middle South represented a type of civilization closely resembling that of the Mayas and Toltecs, which lived before the Aztecs. —Nashville Banner.

This book will be of interest to the people of Jackson county, as quite a good deal of material was furnished by the county for the book. Mr. Myer spent some time in the county three ago this summer, with a force of men, and in excavating in the old sites of the former burring grounds of the Indians found a large number of valuable relics. Much valuable information was learned from the research work he done in this county.

ELECTION FOR CONSTITUTIONAL CONVENTION.

Governor Issues Proclamation Naming Sept. 4.

Governor Roberts has issued a proclamation naming Thursday, September 4, as the date when an election will be held in every county in the state to determine, whether a constitutional convention will be held or not. In case the election favors holding a convention, delegates will be selected October 16.

Following is the proclamation: "Whereas chapter 138 of the general assembly of the state of Tennessee of 1919, approved April 17, 1919, authorizes the people to decide by vote whether they will call a constitutional convention, and provides for the submission of said question to the voters of state, and for the announcement of the result: and,

"Whereas, Section 4 of said act makes it the duty of the governor to issue a proclamation to the several commissioners of election, or other proper officers under the law in the state and counties thereof, requiring that such election under said act be opened and held for the purposes therein named:

Now, therefore, I, A. H. Roberts, governor of the state of Tennessee, do hereby authorize and direct the state board of elections and the several county board of elections in all the counties of Tennessee to open and hold the election provided for in said act within legal hours, at all voting precincts, in this state, on the first Thursday in September, 1919, being September 4, 1919, making due return thereof as required by said act.

"All state and county election officers in this state shall take due notice hereof, and of said act, and govern themselves accordingly.

"In testimony whereof I have hereunto set my hand and caused the great seal of the state to be affixed at the capital, in the city of Nashville, on the 17th day of July, 1919.

"A. H. ROBERTS, Governor.

"Ike B. Steeves, Sec. of State.

Jackson County High School Affords Opportunity For All.

We teachers of the Jackson County High School are exceedingly well please with the opening of our school and the prospects of the school for the ensuing year.

We believe that our work is worthy of the investigation, not only of the people of the immediate vicinity of Gainesboro, but of the people of the whole county.

We believe we have as good to offer to those pupils of the county who are contemplating leaving their community to go to school, as they will find anywhere, hence, we extend to them a cordial invitation to come and be with us throughout the whole school year.

We are ambitious to make this the most successful year in the history of the school. We are confident that with the splendid co-operation our patrons are offering us, we are going to succeed.

We are special anxious for the patrons to visit the school, and learn of the work we are doing.

Harry T. Moore, Prin.
